

# Urban Services

Delivering quality, efficiency and safety.

Incorporating our well established network of regional offices and the Urban ITS project delivery team, the Urban division has over 200 'live' contracts ongoing for the installation of new signal equipment, ITS Systems, refurbishment works and term maintenance.

## Safety, Quality & Environment

Safety is always of paramount importance; we deliver to the highest standards and ensure that quality and safety is core to every solution and service we provide. Peek works within the current ISO standards and ensures its workforce is health and safety aware and fully trained. All works are carried out with respect to our environment.

## Resource Network

Peek employs over 450 field and projects staff, operating from our UK and Ireland offices. This network of facilities provides excellent geographic coverage to service our extensive client base. At each regional office we have a dedicated structured team with our national fault control centre supported in many regions by a localised fault management service.

## Services and Solutions

Peek's highly experienced team delivers end to end ITS solutions including UTMC and RMS systems and the installation, commissioning and maintenance services for a wide range of roadside equipment from traffic controllers, associated street furniture and outstation control and monitoring to enforcement cameras, ANPR devices, Variable Message (VMS) and Vehicle Actuation Signs (VAS).

## Key Features

Peek is a leading supplier of intelligent transport solutions. For more than 30 years, the firm has been providing advanced traffic control products and systems, management and maintenance services for both the urban and highways markets. Peek's established and proven portfolio includes traffic management systems incorporating SCOOT, highway congestion management and enforcement systems, vehicle detection systems, exterior lighting, as well as supervisory and communications systems. Peek is ISO 9001:2008 and ISO 14001:2004 certified.

With headquarters in Basingstoke, Hampshire, Peek employs more than 500 staff throughout the UK. Peek is part of the Traffic and Infra division of Imtech NV, a global technology services provider based in the Netherlands.
