

NEWS RELEASE

September 2011

A Move to Improve Urban Midlands Region Relocation

Following the successful outsourcing of our production operation to JJS, part of the Paragon Group, Peek has decided to utilise the space vacated to relocate our Midlands Operation to a larger premises in a more accessible location. From mid-October 2011, the Urban Midlands team will be operating from our offices at Centurion Way, Meridian Business Park, Leicester just off junction 21 of the M1.

At Peek, we constantly endeavour to provide our clients with a best in class service. By operating from more efficient premises, we will be able to improve our service offering to our Midlands based customers and support the expansion of our business into new sectors. This location will house our multi-skilled workforce servicing Signals, Urban Traffic Control (UTC), Public Lighting and other highway based technology. Having the most appropriate facilities and locations matched to our customer requirements is paramount to delivering best value.

We are now able to provide multi-disciplined teams that have the skill and experience to carry out work on the majority of technology employed on the highway, including public lighting. Recognising the requirement to provide value for money, this capability can provide savings to our clients where previously not considered or not possible.

If you have any queries, please contact the Midlands Regional Manager, Mark Edwards - mark.edwards@peek.co.uk.

About Peek

Peek is a leading supplier of intelligent transport solutions. For more than 30 years, the firm has been providing advanced traffic control products and systems, management and maintenance services for both the urban and highways markets.
